

printOp_ifnull

read< uint16_t >

read< uint8_t >

```
graph LR; A[printOp_ifnull] --> B[read< uint16_t >]; B --> C[read< uint8_t >];
```

The diagram illustrates a sequence of three operations in a flowchart. The first operation, 'printOp_ifnull', is contained within a gray rectangular box. A dark blue arrow points from this box to the second operation, 'read< uint16_t >', which is in a white rectangular box. Another dark blue arrow points from the second box to the third operation, 'read< uint8_t >', also in a white rectangular box. All boxes have a black border, and the arrows are horizontal and point to the right.
